

Science GSEs: 8th Grade

Standard: S8P1

- "Obtain, evaluate, and communicate information about the structure and properties of matter"
- Compare and contrast chemical and physical properties of matter
- Develop and use models to compare and contrast pure substances and mixtures and to describe particle movement in solids, liquids, gases and plasma
- Create an argument that a change can be classified as physical or chemical based on observational evidence
- Develop models based on patterns in the periodic table that illustrate the characteristics of atoms
- Construct an explanation based on evidence for the conservation of matter in a chemical reaction

A standard periodic table of elements with atomic numbers and symbols. The title is "The Periodic Table of the Elements". It shows groups 1 through 18 and periods 1 through 7. Lanthanides and Actinides are shown at the bottom.

Group	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18

Water activity to fulfill standard: Have students perform simple water quality tests: dissolved oxygen, temperature, pH and visual tests.
