Jittery Joe's is proud to support the efforts of UOWN by bringing you this **Mad Tom Blend**. Tom's mad! Why, you ask? His home's being destroyed and he needs your help! The madtom catfish, pictured on the front of this can, is a sensitive species of catfish found in the waters of the Upper Oconee watershed. Their habitat is being affected by human impact and Tom has enlisted the help of the Upper Oconee Watershed Network to assist him in his quest to clean up his home.
